

## CHAPTER V

### CONCLUSIONS AND SUGGESTIONS

#### A. Conclusion

Based on the reserach findings, it can be conclude that teaching vocabulary by using flashcard improve the students' vocabulary achievement. It was proved that the mean score of the last test (M= 83) was higher than the mean score of the first test (M= 40.33), it means that the students had an improvement with their score from the first until the last test. These improvement support the quantitative data, that the students have the improvement in vocabulary by using flashcard as the media.

Finally, it can be conclude that the use of flashcard while teaching and learning process in the classroom can improve students vocabulary achievemnt and based on the qualitative data that consist of diary notes, interview sheet and observation sheet, it can be conclude that the students felt interested to learn vocabulary by using flashcard.

#### B. Suggestion

The result of this study showd that the use of flashcard could improve the students' vocabulay achievement. Therefore the following suggestions were offered:

1. Teacher

For English teacher, it is useful to use flashcard as one alternative way in teaching vocabulary to make variation in it, so that the students do not get bored in learning English especially in vocabulary

2. Students

Using flashcard can be fun and interesting to the students to help them get the lesson in an enjoyable environment.

3. Other Researcher

Based on the research findings, the researcher use encouraged to conduct a much in depth study especially to young learners.
