

CHAPTER V CONCLUSION AND SUGGESTION

A. Conclusion

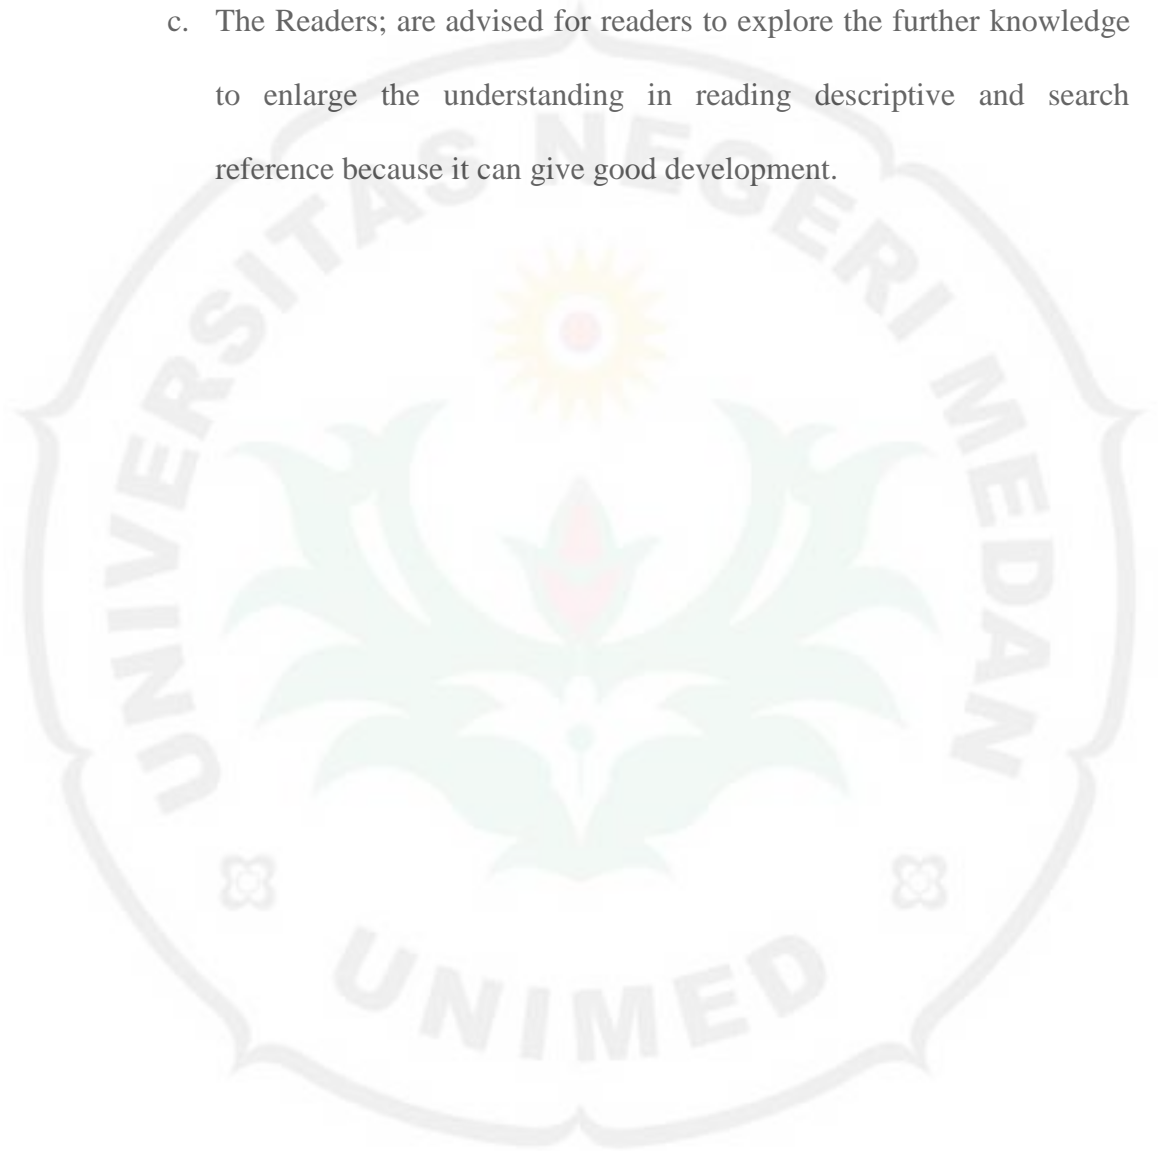

Finally, after analyzing the data, the researcher found that the students' score improve from the first meeting until the last meeting. It means that there is improvement in students' achievement in reading comprehension by applying Student Team Achievement Divisions (STAD) method. It can be seen from the improvement of the students' mean score for orientation test (44); cycle I (61.16) and cycle II (80.33). The students score continuously improved in each test. Therefore, it can be concluded that Student Team Achievement Divisions (STAD) method can improve students' achievement in reading comprehension.

B. Suggestions

Related to the conclusion, some suggestions are pointed out as the following:

- a. English Teachers; are advised for English teachers to use Student Teams Achievement Divisions method in reading descriptive text in teaching learning process, because it's proven that this method improved the students' achievement in reading descriptive text easily and creatively.
- b. The Students; are suggested for students to use the method, because it can improve the students to more interested and enjoyable in reading. Especially reading descriptive text.

- c. The Readers; are advised for readers to explore the further knowledge to enlarge the understanding in reading descriptive and search reference because it can give good development.
