Based on the analysis, conclusions are stated as the following:

1. a. There are three categories of language styles which are found in *Nemokno* event in Javanese wedding ceremony. They are formal style, consultative style, and casual style.
b. Language style used by the bride's side and the groom's side in *Nemokno* event in Javanese wedding ceremony are formal style, consultative style, and casual style.
c. The most dominant language style which is used in *Nemokno* event in Javanese wedding ceremony are formal style and consultative style.
2. The realization of language styles delivered by the bride's side and the groom's side in *Nemokno* event in Javanese wedding ceremony contains of two rule of language style, namely linier and illinier.
3. In Javanese wedding ceremony, the bride's side and the groom's side use formal style because they use words '*kiayi*' and '*iku artine*'. The both side use the words to give clear answer and information and to show their great honor and respect to each other and audience. And the reason why they use consultative style in their sentence because they utter some questions which should be answered by the other side.

5.2 Suggestions

It is suggested to those, who concerned with Javanese culture to learn about Language style in *Nemokno* event in Javanese wedding ceremony. It is so because Javanese wedding ceremony will affect to the words selection used during the event takes place. In addition the special suggestion offered to the following :

1. It is suggested to the lecturers who play an important role in teaching sociolinguistics to give attention, not only foreign and Indonesian cultures, but also to the cultures of vernacular. If they know more about the cultures of vernacular, especially Javanese culture, the lecturers can compare Javanese culture with the other cultures.
2. It is suggested to the other researchers to do more research about language style, not only in *Nemokno* event, but also another event in Javanese wedding ceremony.
3. It is suggested to the bride's side and the groom's side in Javanese wedding ceremony to use the information style to give clear answer and information and to show the great honor and respect to the other side and audience.
4. It is suggested to the young generation of Javanese to learn more about Javanese language, in order to socialize Javanese language all over the world.
5. It is suggested to the Javanese people to learn more about Javanese culture especially Javanese wedding ceremony, and to socialize Javanese culture to the other culture that Javanese culture is also interesting to study.
