

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based on research findings, the researcher concludes that there is a significant effect of applying Word Webbing technique on students' vocabulary mastery. Teaching vocabulary by applying Word Webbing gives better result than that teaching vocabulary without applying Word Webbing. It is proved statistically that the t-observed (5,70) is higher than the t-table (2,00) at the level of significance (α) 0,05 with the degree of freedom (df) 58. Therefore, teaching vocabulary by applying Word Webbing technique significantly affect vocabulary.

B. Suggestion

Related to the conclusion given, it is suggested as follow:

1. For English teachers, they should apply Word Webbing Technique in their teaching learning process so that they can improve their students' vocabulary mastery.
2. For the students, students feel more interested and motivated them to be better in mastering vocabulary.
3. For the readers, this finding is as basic information to increase their knowledge to apply it in teaching learning process.
