

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### A. Conclusion

After analyzing the data, it was found that the average scores of students in every test kept improving. It means that there was a significant improvement on the students' reading achievement in reading narrative by applying QAR strategy. It can be seen from the improvement of mean of the students' score namely: the mean of orientation test (1160) increased to the mean of cycle I test (1475) and to the cycle test II (1760). The score continuously improved from the first test to the third test.

#### B. Suggestion

The result of this research showed that the used of QAR strategy improved students' reading achievement in narrative text. In relation to conclusion above, some points are suggested, as follow:

- a. The English teacher are suggested to use QAR strategy as the effective strategy to stimulate the students' learning reading spirit and interest in the teaching – learning reading process.
- b. For the readers who are interest for futher study ( university students) related to this research should explore the knowledge to enlarge their understanding about how to improve reading narrative and search another reference.
