

CHAPTER V CONCLUSIONS AND SUGGESTIONS

A. Conclusions

Based on the data analysis, the writer draws the following conclusions :

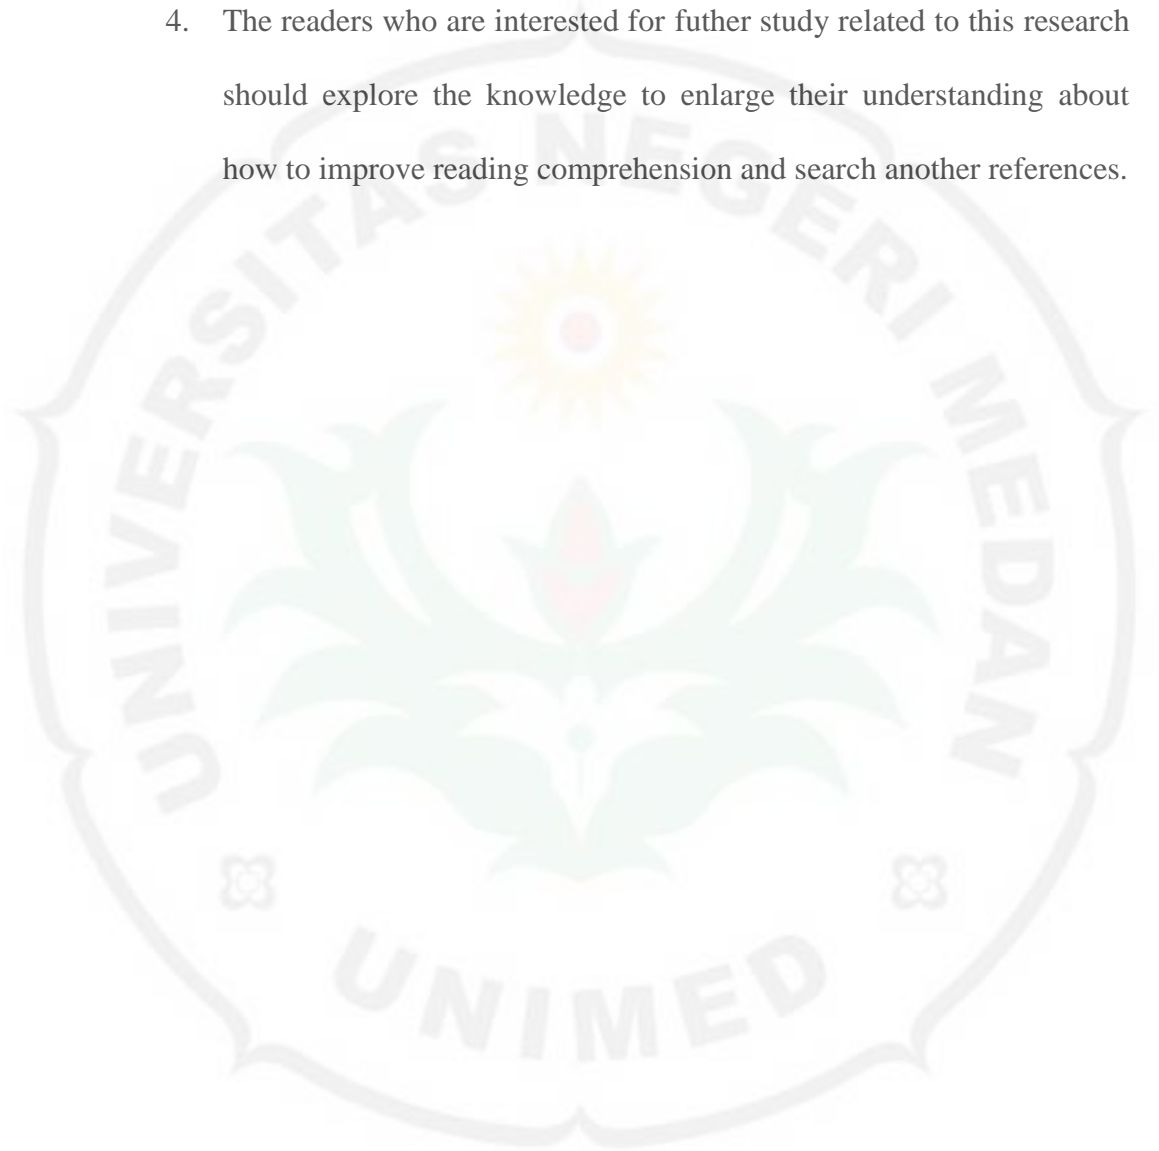

1. SQ3R method significantly affect the students' achievement in reading comprehension. ($t_{\text{observed}} > t_{\text{table}}$, $p = 0.05$)
2. The result of calculation of t-test (3.993) with degree of freedom (df) = 62 is greater than t_{table} (2.000) ($p = 0.05$) which implies that the alternative hypothesis is accepted. This means that the SQ3R significantly affect the students' achievement in reading comprehension.

B. Suggestions

Based on the conclusion, suggestion are stages as the following :

1. It is advisable that the teachers of English to apply SQ3R method in teaching reading comprehension as the alternative media in teaching learning process.
2. It suggested that the students are able to read by using SQ3R method, to be better in reading and also to enrich the idea of reading.
3. The readers who are interested for futher study related to this research should explore the knowledge to enlarge their understanding about how to improve reading comprehension and search another references.

4. The readers who are interested for futher study related to this research should explore the knowledge to enlarge their understanding about how to improve reading comprehension and search another references.
