

CHAPTER V

CONCLUSION AND SUGGESTIONS

A. Conclusion

After analyzing the data, it can be concluded that using outlining technique significantly affect on students' achievement in writing descriptive paragraph. Because it was found that the value of t_{observe} was 2.870 with the degree of freedom (df) = 58 at the level of significance $p(0,05) = 1.673$. It means that t_{observe} is higher than t_{table} ($2.870 > 1.673$), null hypothesis is rejected and alternative hypothesis is accepted. So, outlining technique is better to increase students' achievement in writing descriptive paragraph.

B. Suggestions

The researcher point out some suggestions as following:

1. To the English teacher, applying outlining technique because this technique helps the students in understanding the descriptive paragraph.
2. To the students, with this technique they can make an outline before writing a paragraph, so that the students can be more creative and easier to share their ideas into writing by applying outlining technique.
3. To the readers, to know outlining technique because they can enlarge their knowledge and understanding about writing with this technique.
