

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

A. Conclusion

Based on the data analysis which are presented in the previous chapter, the conclusion are dawn as the following:

1. The findings shows that the students' achievement taught by Quantum Teaching Model in writing descriptive texts is higher than the students taught without applying the Quantum Teaching Model.
2. The findings shows that t_{obs} is higher than t_{table} . it means that the proposed hypothesis is accepted.
3. The Quantum Teaching Model can improve the students' achievement writing, especially in writing descriptive texts.

B. Suggestion

Having considered the findings of this research, the suggestions are:

1. It is suggested that the teachers of English should apply the Quantum Teaching Model as the model of teaching in teaching writing in order to improve the students' achievement in writing descriptive texts.
2. The teacher should also prepare various kinds of media for the classroom application of the Quantum Teaching Model.
