

CHAPTER V CONCLUSIONS AND SUGGESTIONS

A. Conclusions

Based on the data analysis and discussion, the researcher concludes that there is a significant effect of applying Prediction Strategy on students' reading comprehension in narrative text. Teaching reading comprehension especially in narrative text by applying Prediction Strategy gives better result than teaching reading comprehension by applying lecturing strategy. This supported by the data analysis result in which t-observed (3.96) is higher than t-table (1.99) at the significant level of (0.05).

B. Suggestions

Based on the conclusion above, the researcher gives suggestions as follows:

1. The English teachers are suggested to use Prediction Strategy as a new strategy in teaching reading process especially in narrative text because this strategy is proved effective to improve the students' ability in reading comprehension.
2. Other researchers who may apply Prediction Strategy for further research. It is suggested for them to manage the sufficient time when applying Prediction Strategy in teaching reading comprehension.
