

## CHAPTER V

### CONCLUSIONS AND SUGGESTIONS

#### A. Conclusions

Based on the results of the data analysis which were presented in Chapter IV, it was found that the scores of the students who were taught by using Cooperative Script Method is higher than the score of the students who were taught by using explaining method.

The conclusions can be drawn as follows : the findings showed that  $t$ -observed ( 4,52 ) was higher than  $t$ -table ( 2,00 ) for the degree of freedom (df) 58 at level of significance ( $\alpha$ ) 0,05. So, the hypothesis was accepted which means that there was significant effect of using Cooperative Script Method on students' reading comprehension.

#### B. Suggestions

Based on the conclusions, the results of the findings contribute some suggestions, for:

1. University students who want to study more about Cooperative Script, this research could be advisable reference.
2. English teachers are suggested to use Cooperative Script Method to improve students' achievement in reading report text.
