

## CHAPTER V

### CONCLUSION AND SUGGESTIONS

#### A. Conclusion

Based on the data analysis, it can be concluded that teaching writing skill by using SAVI method significantly affects the students' achievement in writing descriptive text. It can be seen from the data which had obtained in the post-test of experimental group were: the total score was 2279 and the mean score was 75.96, while the data in control group were: the total score was 2069 and the mean score was 68.96. Thus, the students' score in experimental group was higher than the students' score in control group. The calculation of the data in the testing hypothesis showed that  $t$ -observed 3.69 was higher than  $t$ -table 2.000, it means that the alternative hypothesis ( $H_a$ ) is acceptable.

#### B. Suggestions

Based on the result of the study, some suggestions are offered to the English teachers that it is wiser to apply SAVI method because it helps the teacher to be more creative in teaching writing descriptive text. And also it is suggested to the students to apply SAVI method in order to improve their creativity and ability in writing a text especially in writing descriptive text. It is expected to the readers who are interested

in dealing with this study so that they have a good understanding to support their study.

Finally, the writer considers that this study still need validation from the next researcher that has the similar topic with this study.
