CHAPTER V

CONCLUSIONS AND SUGGESTIONS

5.1 Conclusions

After analyzing types of process in Facebook, the conclusions are presented as follows:

1) There are six types of process; they are material, mental, relational, verbal, behavioral and existential process. The totals of clause that are found at 5 user's status in Facebook are 801 (100%) clauses. There are 327 (40,8%) of material process, 159 (19,9%) of mental process, 223 (27,8%) of relational process, 31 (3,9%) of verbal process, 56 (7,0%) of behavioral process and 5 (0,6%) of existential process.

2) The dominant type of process which is used in Facebook status is material process with 327 (40,8%) clauses.

3) The highest proportion in the use of material process is due to the fact that most of users in Facebook share their action or event.

5.2 Suggestions

Referring to the result of this research, the following suggestions are forwarding:

1) Those who are interested are suggested to enlarge their knowledge what types of process in functional grammar.

2) The readers are suggested to know how types of process are used in communication.

3) The students of English Department are advised to study more about types of process, so they can better understand how to share information.

4) For other researcher, it is suggested that this study can be reference for the further research to analyze the types of process. This study can help the further research to be more understand clearly, how significance the types of process are in communication.
