

CHAPTER V CONCLUSIONS AND SUGGESTIONS

A. Conclusions

After analyzing the using of speech function in *'Yeah Mahasiswa'* tweets, the conclusions can be drawn as follows:

1. There are four types of speech used in *'Yeah Mahasiswa'* tweets with the occurrences of statement is 84 (80%), question is 11 (10.5%), command is 6 (5.7%), and offer is 4 (3.8%).
2. The dominant type of speech function used in *'Yeah Mahasiswa'* tweets is statement 84 (80%), because @yeahmahasiswa tend to give information in its interaction through its tweets. When @yeahmahasiswa used giving, it actually invited viewers to receive something from them through its tweets, such as information of whereabouts, action, situation, condition, or anything else. And when it used demanding, it actually invited the viewers to give something the viewers have, such as information, response or reaction.
3. Statement as the dominant type occurs because of the context. The context are field, tenor and mode. For field are (-) institutionalized and (-) specialized, tenor are (-) formal situation, (+) interpersonal and (+) frequent, and the last mode are (-) planning.

B. Suggestion

Referring to the result of this research, the following suggestions are forwarding.

1. It is suggested to the students of English Department to learn more about speech function in order they can develop their understanding on how speech function works in texts or online texts.
2. For other researches, this thesis can be used as reference when they decide to discuss the same topic for their thesis.
3. The research are suggested to do further studies in other texts.
