

ABSTRACT

R Hadi Prabowo. 2014. Language Style Used on “Nisa on The Radio” Program in KISS FM Radio Interview. A Thesis. English Department, Faculty of Languages and Arts, State University of Medan.

This research focused on language style used on “Nisa on Radio” program in Kiss FM radio interview. The research was conducted by using descriptive qualitative. The data were collected from Youtube. The result showed that the host used three types of language style, they were consultative style (54.54%), casual style (41.18%) and intimate style (4.28%). The interviewee used only two types of language style, they were consultative style (56.74%) and casual style (43.26%). The most dominant type was consultative style because the host had a purpose to give information about the interviewee by asking a lot of questions, and the interviewee had to reply all the questions from the host to fulfill the host’s curiosity.
