

CHAPTER V CONCLUSION AND SUGGESTIONS

A. Conclusion

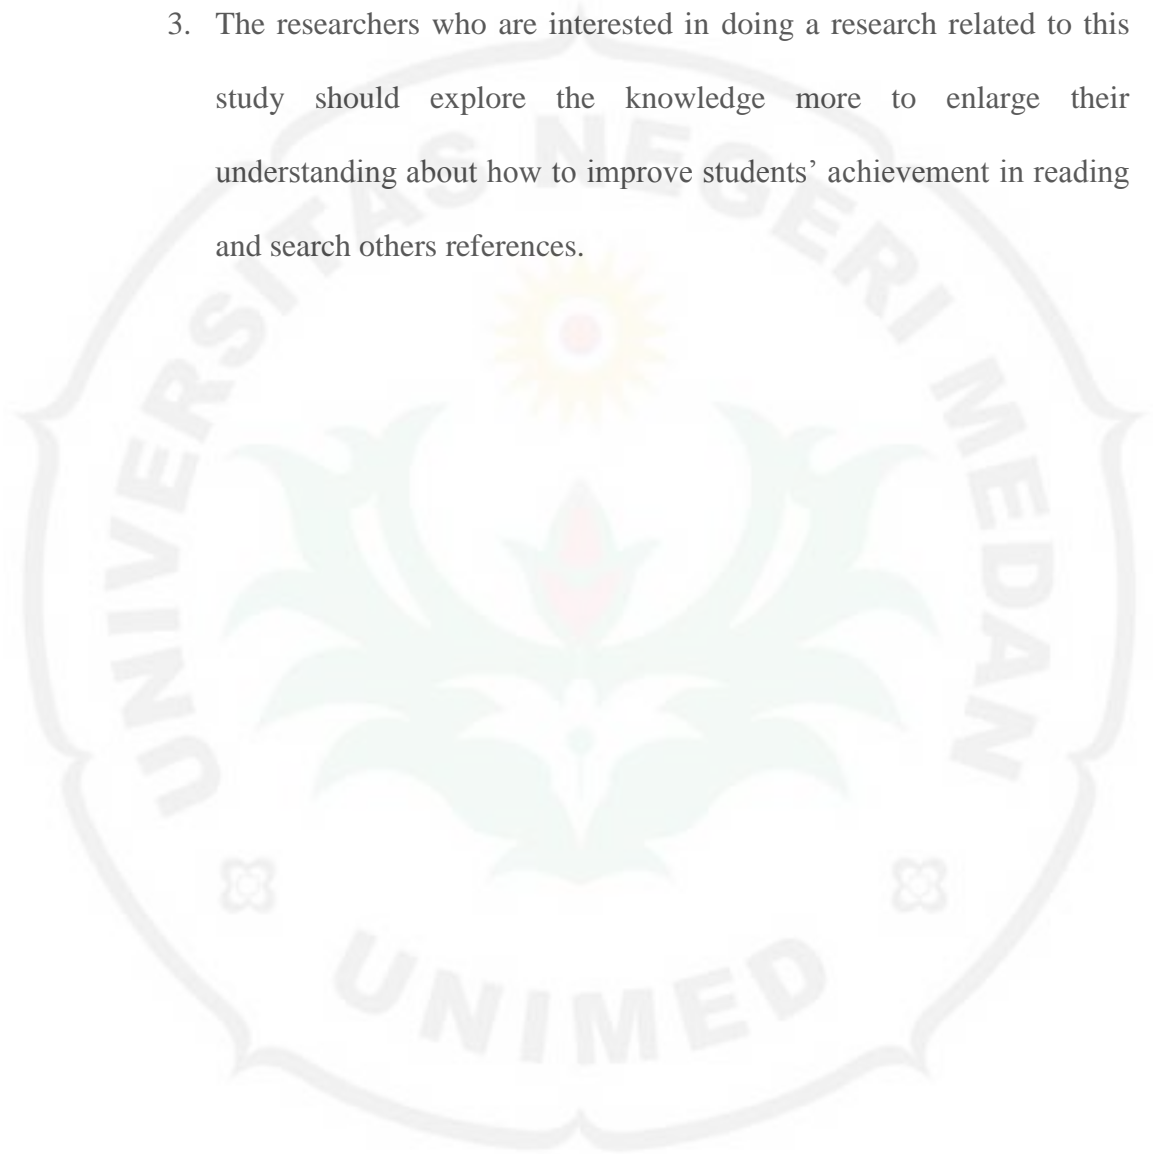

Based on the result of the data analysis and discussion, the researcher concludes that using English Animation Movie as media significantly affects the students' achievement in reading narrative, since students' achievement in reading narrative text who taught by using English Animation Movie is higher than taught by using pictures. Therefore, the formulated hypothesis as "The students' achievement taught by using English Animation Movie in reading narrative text is higher than those taught by using pictures as media" is accepted. This supported by the data analysis results in which the t-observed (3.70) is higher than the t-table (2.00) at the significant level of (0.05).

B. Suggestions

Based on the conclusion above, the researcher gives some suggestions for those who are interested in teaching reading as follows:

1. English teachers are suggested to use English Animation Movie as a media in their teaching learning process in order to improve their students' achievement in reading narrative text.
2. Students are advised to have more practices in reading, since practice makes perfect and applying this kind of media in reading.

3. The researchers who are interested in doing a research related to this study should explore the knowledge more to enlarge their understanding about how to improve students' achievement in reading and search others references.
