

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

A. Conclusions

This study deals with sexist language that found on Instagram specifically in *Dagelan* account. There were 50 sentences taken from the pictures that have short sentence or caption related to sexist language. The analysis of the study shows that :

1. From the types of ambivalent sexism composed into hostile and benevolent sexism by Glick and Fiske (1996, 1997), there were 24 sentences related to hostile sexism and 26 sentences related to benevolent sexism.
2. The using of benevolent sexism is the most dominant used in *Dagelan* account. There were 26 sentences.
3. The most prominent gender discussed in *Dagelan* account on Instagram by using ambivalent sexism theory is female in hostile sexism.

B. Suggestions

Having seen the results of this study, the writer would like to offer some suggestion to be considered by those who are interested in studying about sexist language by using ambivalent sexism theory by Glick and Fiske (1996, 1997) for further research about it. they are as follows:

1. It is suggested to students of English Department should learn more about language development in society.
2. It is suggested to other researchers to use ambivalent sexism theory for the further research to analyze sexist language on the others media.
3. It is suggested for all the readers in order to have more knowledge about the use of sexist language that is often used and found in daily life because some of people do not know about sexist language
