

## CHAPTER V

### CONCLUSION AND SUGGESTIONS

#### A. Conclusion

The calculation of the data in the testing hypothesis showed that  $t$ -observed (6.035) was higher than  $t$ -table (1.990), it means that the alternative hypothesis ( $H_a$ ) is accepted. So, it can be concluded that watching video significantly affected on the students' achievement in writing explanation text.

#### B. Suggestions

Based on the conclusion above, suggestions are given by following:

1. English teachers, to use video as media in teaching writing explanation text because it helps to attract the students' interest and in turn it gives motivation for students get involved in teaching and learning process so it can affect the students' writing achievement.
2. Other researchers, to develop the relevant study by using video on other writing genres or language skill since it is proven significantly affects the students' writing achievement.
