

CHAPTER V CONCLUSION AND SUGGESTION

A. Conclusion

Based on the result of the data analysis, it was concluded that Audio Visual Media method gave a significant effect to the students' achievement in writing descriptive text ($t\text{-observed} > t\text{-table}$, $\alpha = 0.05$). Students who were taught by using Audio Visual Media be better in writing descriptive text than those taught by using Picture. The calculation of t-test was $2.18 > 1.994$ with df 78 and level of significance 0.05. So, alternative hypothesis (H_a) was accepted and the Audio Visual Media significantly affected students' achievement in writing descriptive text.

B. Suggestion

Related to the conclusion, some suggestions are offered by the writer as to the English teachers that are suggested to apply Audio Visual Media in teaching learning process, especially in teaching writing because it can help students make the learning activities to be more interesting in teaching writing descriptive text. And also it is suggested to students to apply Audio Visual Media in learning in order to improve their writing achievement especially in writing descriptive text. In addition, it is expected to the readers who are interested in dealing with this study so that they have a good understanding to support their study.
