

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

The main objective of this study was to determine whether there is any difference in improvement of students' ability in narrative text between the group using animal cartoon pictures and without using animal cartoon pictures.

Based on the result of this study, the researcher found that the students' achievement taught by using animal cartoon pictures is higher than the students' achievement taught without animal cartoon pictures. It is indicated from analyzing the data statistically that the result of calculation of t-test that t-observed value 5.21 is higher than t-table value 1.67 at the level of significant of 0.05, which implies that the alternative hypothesis (H_a) is accepted.

B. Suggestions

The study showed that the applying animal cartoon pictures could improve the students' achievement in writing narrative text. Based on the conclusion given the researcher suggests that:

- 1) English teachers are recommended to use animal cartoon pictures as media in teaching writing narrative text because it can stimulate students' imagination and attract students' interest and make the students feel new atmosphere in teaching and learning process. So, it motivates students and it can affect the students' writing achievement.
- 2) Those who are interested in carrying out further research related to this study providing them with some valuable information needed.
