

## CHAPTER V

### CONCLUSIONS AND SUGGESTIONS

#### A. Conclusions

Based on data and data analysis in chapter IV about terms of address by Mandailing community in wedding ceremony video. The first conclusion is concerned with kinds of the terms of address by Mandailing community in wedding ceremony video. The second conclusion is related to factors that influenced the terms of address by Mandailing community in wedding ceremony video. As follows:

1. There are six kinds of the terms of address by Wardhaugh's theory. They are first name (FN), title plus last name (TLN), title (T), last name (LN), pet name (PN), and kinship term (KT). From six kinds, there were only five kinds used in Mandailing wedding ceremony video. They were FN, TLN, T, PN, KT with the total kinds of address terms used by Mandailing community in wedding ceremony video are 203 data. The most dominant kind the terms of address are used by Mandailing community in wedding ceremony is KT (147 times) 72,41%. The most dominant rarely used by Mandailing community in wedding ceremony video is T (13 times) 6,40%. And LN is never used by Mandailing community in wedding ceremony video. So, it means that Mandailing

community are usually use the terms of address by their relatives/family relationship or kinship terms.

2. In this research, factors that influenced the terms of address by Wardhaugh's theory are divided into seven. They are gender (G), age (A), family relationship (FR), occupational hierarchy (OH), transactional status (TS), race (R) and degree of intimacy (DI). The total data factors that influenced the kinds of address terms by Mandailing community in wedding ceremony video are 315 data. The most frequent factor that influenced the terms of address by Mandailing community in wedding ceremony video is FR (146 data) 46,35%. And the less factor that influenced of the term of address by Mandailing community in wedding ceremony video is TS (1 data) 0,31%. It means that all factors were used by Mandailing community in wedding ceremony video. And then based on the data, factor that influenced of mandailing address terms is usually FR or by their relatives.

### **B. Suggestions**

After collected and analyzed the data, some suggestion are given as follows:

1. It suggested that the reader of this thesis is important to know what kinds of the terms of address are used by Mandailing community and what factors influenced the terms of address by Mandailing community, especially in wedding ceremony video.

2. The researcher suggest to reader who want to know about Mandailing language, especially Mandailing community who doesn't know Mandailing language anymore. It is better to learn through Mandailing wedding ceremony video because in wedding ceremony it's almost use the terms of address.
3. For futher researchers, who wants to use of address terms usage as the object of the research or for researcher who wants to analyze of address terms from different perspective. Terms of address can be found in every language, it's not just mandailing language but also the other language .
