

CHAPTER V CONCLUSIONS AND SUGGESTIONS

A. Conclusions

Based on the result of the data analysis, it shows that using video effects on students' achievement in writing procedure text. It is found that students' achievement in writing a procedure paragraph taught using video is higher than those taught by using conventional model/without using video. There are different means between the groups, experimental and control group in post-test. They are 76.62 and 69.00. It means that the mean of experimental group is higher than the mean of control group. Besides, the calculation of t-test shows that t-observed is higher than t-table. It means that the alternative hypothesis is accepted.

B. Suggestions

In line with the conclusion of the study, some suggestions are offered to the English teachers that it is wiser to use video because it helps the teacher to be more creative in teaching writing procedure text. And also it is suggested to the students to use video in order to improve their creativity in writing a text especially in writing procedure text. In addition, it is expected to the readers who are interested in dealing with this study so that they have a good understanding to support their study.
