

CHAPTER V

CONCLUSION AND SUGGESTIONS

5.1 Conclusion

Based on the analysis, the conclusions were stated as following :

1. There are three ways of using swear words such as (1) Interjection, are utterances of Swear Word expressing surprise, pain, fear, anger, disappointment, even joy, emphatic, disagreement, incredulity, speaker stance (Ljung, 2011). (2) Emphasizer, swearing in English is often used to place emphasis on a following noun (Ljung,2011). In this definition, *emphasis* is considered as giving stress on something., (3) Expletive Slot Fillers, are expressions indicating a speaker attitude towards something by using swear word. The function of the swear word in the expression is to intensify the attitude. in each movies, but from all of those ways, interjection is the most in each movies.
2. The reason of using the swear words of teeanger and adult in the movies of good and bad topics is caused by the psychological and social motives.

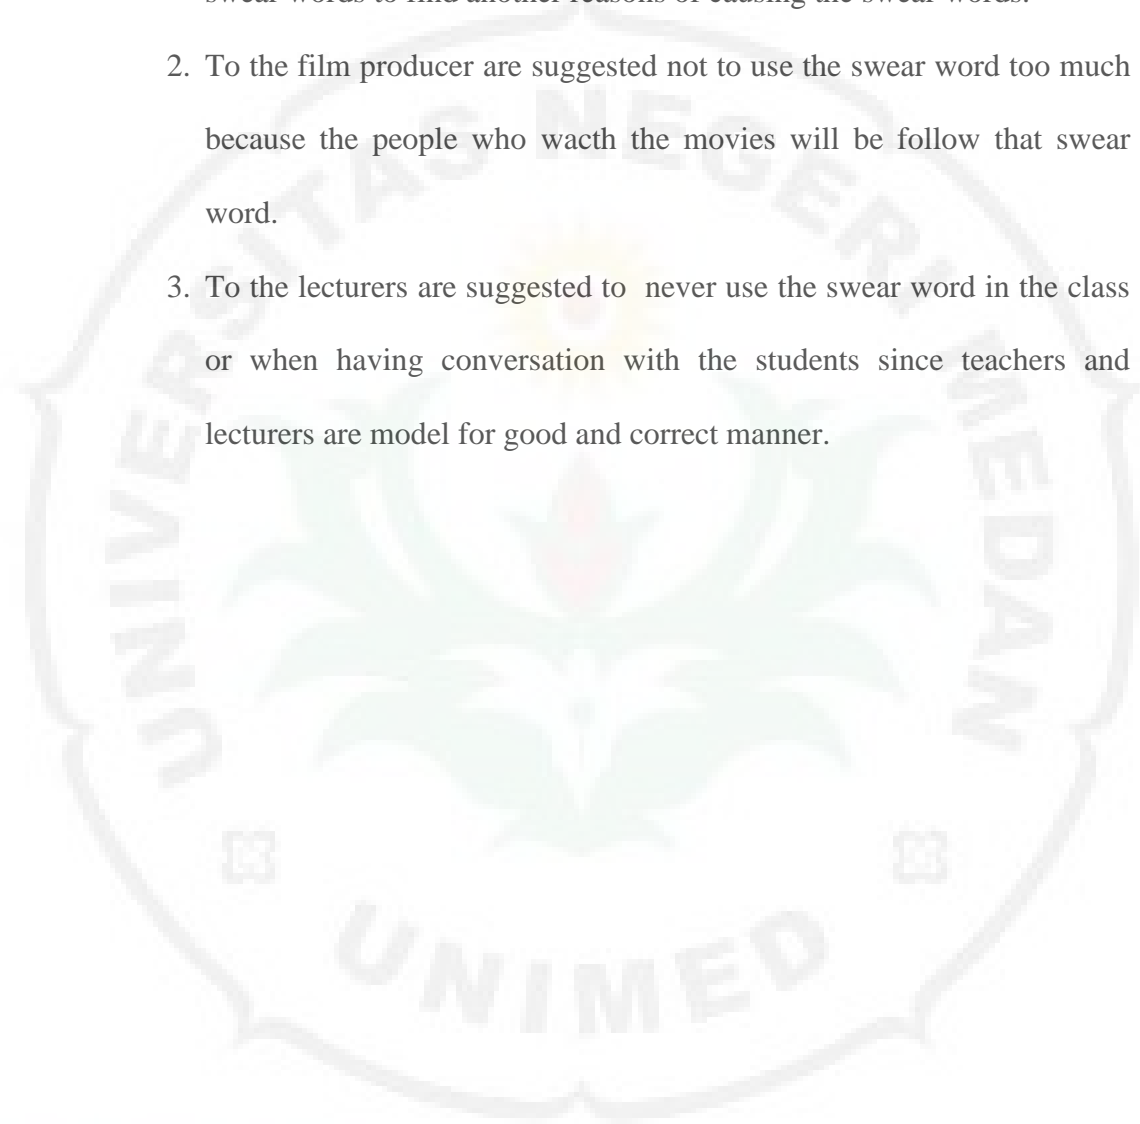

5.2 Suggestions

In relation to the conclusions, suggestion are offered as the following :

1. Since the subject of the research is limited to the movies with different topic, it is suggested to other researchers to research about swear words in other context such as the swear words in one's culture. It is

suggested to the other researcher who are taking and conducting the swear words to find another reasons of causing the swear words.

2. To the film producer are suggested not to use the swear word too much because the people who wacth the movies will be follow that swear word.
3. To the lecturers are suggested to never use the swear word in the class or when having conversation with the students since teachers and lecturers are model for good and correct manner.
