

## ACKNOWLEDGEMENT

Praises and thanks to God Almighty for all blessing, guidance, wisdom, strength, and health were given so that writer could finish this thesis. This thesis entitled "The Development of Interactive Multimedia Towards the Most Difficult Chemistry Syllabus In Senior High School" was carried out to fulfill the requirement for getting Magister Pendidikan of Chemistry Education, State University of Medan.

On this precious occasion, I would like to give thanks to my supervisor, Prof. Dr. Ramlan Silaban, M.Si and Dr. M. Yusuf, M.Si for all suggestion, advice, guidance and constructive comments started from the beginning until it was fully accepted for having my degree, and also giving thanks to Dr. Marham Sitorus, M.Si, Dr. Ayi Darmana, M.Si, and Dr. Ajat Sudrajat, M.Si as my examiners. Big thanks also dedicated to Dr. Murniaty Simorangkir, M.S as my validator of test instrument; Prof. Dr. Retno Dwi Suyanti, M.Si, Dr. R. Mursid, M.Pd and Dr. Ajat Sudrajat, M.Si as my interactive multimedia validators. In addition, the writer also gives thanks to Dr. Ajat Sudrajat, M.Si for the time given to me in the process of validating multimedia instrument. It was a full of struggles to meet the requirement of the multimedia instrument.

In particular thanks to my beloved wife, Veronika Eva Diana Panjaitan, SE. MSc. MA my best wife and my soulmate that always cared, prayed, encouraged and inspired me to finish this research. This was a precious time that we could share each other while our daughter was present on our side. Also give thanks to my beautiful and smart daughter, Avariella Maurens Cordelia Manurung, you are also my inspiration. I couldn't imagine that I would be a Daddy, though I was tired taking care of you, I was blessed to own you.

Special thanks given to my parents, Gustap Manurung and Basaria Sitorus, thank you, Dad and Mom, always supported and advised me as a student, father, and husband. Also to my brothers and sister, Rospita, Rikardo, Lamhot, Mariaty, Dermia and Martahan that prayed to me. With generous also I say thanks to my mother-in-law, Tiodor Marpaung, SPd that always cared, supported and helped

me; my sisters and brothers-in-law, Rina-Kantate, Siska-Benyaris, Frengki and Jekson for all the help, motivation, and big attention.

A profound expression of my gratitude to my brother (A. Mutiara) and “Inang” sister-in-law (Nai Mutiara) who sincerely offered me a place of residence during this study. Maybe I will not be able to reply your goodness, let God bless your family abundantly. I also thank Sunardo Panjaitan as my friend and IT consultant. It was a precious time to strive together in starting the development of my multimedia, though it was unfinished in the end. At the same given thanks to Dr. R. Mursid who helped me find a way to complete this project, although the results were not as desired.

Special remarks I also convey to Drs. Abdul Malik, M.Pd and Dalil Awal, S.Pd as the principal and vice principal of SMA Negeri 1 Tanjung Beringin, who has given time, place and opportunity to the author to do and finish my research. Without you both, this research would not ever be finished. Likewise, I thank the chemistry teacher of SMA Negeri 1 Tanjung Beringin, Mrs. Murni Panggabean, S.Pd. If you had taught the chemical equilibrium in that classes, I would not have finished this research. I was a lucky man when you were busy at that time, it was a blessing to me. The author also does not forget to give thank to the staff of postgraduate of chemistry study program of State University of Medan, Mrs. Desi Yulian, S.Pd for being careful, nimble and cooperative in the process of my thesis production.

My hope this thesis may contribute to the extent of knowledge as being interesting information to every reader. However, the author realizes this thesis is still imperfect, so that author expects feedback through suggestion and constructive criticism in order to make it perfect.

Medan, June 2017

Writer,

Herbet Erikson Manurung
