

LIST OF TABLES

Table 3.1. The description of Population and Samples that Selected.	19
Table 3.2. Descriptive Analysis textbook.	24
Table 3.3. Validity Criteria Analysis with Average Score.	26
Table 4.1. List of Chemistry books that analyze to make innovative book	27
Table 4.2. The description of senior high school chemistry textbook	28
Table 4.3. The average of SHS textbook analyze	29
Table 4.4. The description of development in Learning material	32
Table 4.5. The description innovative and interactive learning material	33
Table 4.6. The description of integration of multimedia in acid base equilibrium	34
Table 4.7. The average value of students assessment on learning material	38
Table 4.8. Data of student achievements in chemistry learning on experiment and control class	40
