

ACKNOWLEDGEMENT

In the name of Allah, the Most Gracious and the Most Merciful.

Alhamdulillah, the deepest thank and praise the writer prayed to Allah SWT for blessing hence researcher is able to finish this thesis with title “Analysis of Knowledge and Attitudes toward Biodiversity of Faculty Mathematic and Natural Sciences’ Students State University of Medan” to fulfill one of the requirement for getting degree of sarjana pendidikan in Biology Department, Faculty of Mathematic and Natural Science, State University of Medan.

Gratefully acknowledges the deepest gratitude to Mr. Dr. Hasruddin, M.Pd as my thesis supervisor who has generously spent precious time in giving the guidance, encouragement, comments, suggestions, and support until this thesis comes true. The great appreciation is addressed to Mrs. Dr. Fauziyah Harahap, M.Si, Mrs. Dr. Martina Restuati, M.Si, and Mrs. Endang Sulistyarini Gultom, S.Si., M.Si., Apt., as the thesis examiners for their advice, criticism, constructive comments, and valuable in completing this thesis.

I would like to express my appreciation to the Dean, Faculty of Mathematic and Natural Science, Mr. Dr. Asrin Lubis, M.Pd, to Head of Biology Department, Mr. Dr. Hasruddin, M.Pd, to Head of Biology Education, Mrs. Dra. Cicik Suryani, M.Si, to Coordinator of Bilingual Program, Mrs. Dr. Iis Siti Jahro, M.Si for their support and help towards my undergraduate affairs and also, to Drs. Muhammad Yusuf Nasution, M.Si as my academic supervisor.

My deepest gratitude and big appreciation to beloved parent, Prof. Dr. Mukhtar, M.Pd and Cut Meurah Asiah, for the endless love, unfailing support, greatest prayer, encouragement throughout the entire life, and also my lovely brother and sister, Munzir Phonna, S.Pd, M.Pd, Muntasir Aidil, S.T., Munawir Maulidin, S.Pd, and Mutiara Ubit Kana for their awesome support and kindness.

Sincere thanks to all beloved bestfriends PPN, such as Khairika Hafani, Astri Salatin, Irene F. Sihombing, Abieza M. Muhammad, Budi Mulyadi, Erwinsyah Ardi, Hermawan Pramudya, Rizki Abdillah, Muhammad Pradana Akbar, Fadly Prianggara P, Andri Kurniawan and Fakhry Husein Lubis for their kindness and moral support. Also, for my special one Muhammad Sufi Sidabutar

who always gives amazing support and always besides me during completing this thesis. For juniors class in FMIPA who supported and helping during research.

My biggest thanks to all my lovely classmates Bilingual Biology 2013, Balqis, Elisabeth, Johan, Icha, Icha Nst, Kristin, Miyzan, Muthi, Anis, Nadya, Sagita, Serma, and Tommy for your support, love, sadness, happiness, crazy times, and unforgettable memories have had in last four years. Thanks to all my lovely students SMAN 1 Plus Matauli, Pandan, who always gives spirit. For Sist Naimatussyifa Daulay as partner discussion to finish this thesis and for her support.

Last but not least, thanks to all my PPL mates in SMA Negeri 1 Plus Matauli Pandan, Tapanuli Tengah for awesome life learning during field experience program 2016.

May Allah reward all those who have contributed in the completion of this thesis. Finally, I hope this thesis would be beneficial to contribute ideas in education, be useful especially for the students of Biology Education, and gives inspiring to people who read to love and save environment. I realize that this thesis is still far from being perfect therefore; constructive, comments, and suggestion are needed for further improvement of this thesis.
