

LIST OF TABLE

	Page
Tabel 2.1. Dimensions of Thingking	16
Table 2.2. Variety of Science Process Skills type	23
Table 3.1. Amount of student	26
Table 3.2. Group pre-test post-test design	28
Table 3.3. Test Reability Index Criteria	30
Table 3.5. Lattice of Higher Order Thinking Skills questions	32
Table 3.6. Lattice of science skill process	33
Table 3.7. Category For Learning Outcome	34
Table 4.1. The result Pre-Test data of the reult of Student' Higher Order Thinking Skill and Science Process Skill In Both Pre-test and in treatment class and control class	39
Table 4.2. The Result displaying Post-Test data of the reult of Student' Higher Order Thinking Skill and Science Process Skill In socio-science issues intervention model and conventional model	41
Table 4.3. The result of normality table of post-test of the class for each indicator science proces skill	42
Table 4.4. The result of normality table of post-test of the class for each indicator science proces skill	43
Table 4.5. The result of homogeneity test table of pre-test of the class for each indicator of higer order thingking skill	43
Table 4.6. The result of homogeneity test table of pre-test of the class for each indicator of science process skill thingking skill	43
Table 4.7. Hypothesis Test of Post-tes Higher order thinking skill	45
Table 4.8. Hypothesis Test of Post-test Sciemce Process Skill	45
