

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

A. Conclusions

After analyzing the data, it was concluded that:

1. The students of Software Engineering program needed the English reading materials are appropriate to their study program Based on the need analysis from the questionnaire and the interview, it was concluded that the students of Software Engineering program in Grade X At SMKN 1 Percut Sei Tuan need the appropriate reading materials particularly descriptive text about “ Bill Gates, a Founder of Microsoft, Paint; the upgrading application program and Seattle, Place invention of Microsoft” in order to increase their knowledge about the use of Software Engineering equipment and also can support their job in the future.
2. The new reading materials were developed by using six phases of Research and Developmental (R & D), they were; 1) Gathrerung Information and data, 2) Analyzing Data, 3) Designing Materials, 4) Validating by Experts, 5) Revising, and 6) Final Product. The materials were developed based on the data of the students' needs analysis the questionnaire , the analysis of interview from the English teachers and the existing materials.

B. Suggestions

Based on the conclusion before, the researcher made some suggestion as following:

1. English Teacher

In teaching, teacher should consider the students' needs in choosing the learning materials. The learning process can be successful if the teacher can give the materials related to the students' program and also The teacher can apply "English for Specific Purposes" approach to apply in teaching English.

2. Students

Students can find the materials related to their study program from the internet and the books, if the existing materials provided are not appropriate to Software Engineering program.

3. School

In order to provide the appropriate English reading materials, the product of this study can be selected before using in the school especially for students of Software Engineering program.

4. Text book writers

To use this study as a referencial to make a better english text book.

5. Other researcher

This study can be used as a referential contribution for those who want to conduct or doing the related study.
