

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### A. CONCLUSION

Based on the research in the 8<sup>th</sup> grade students at SMP Pahlawan Nasional, it can be concluded that the students were interested to the media and the students were easier to write descriptive text after they used the media. So, the media made by the researcher is helping for the students in writing descriptive text. Using picture series as visual media is good media to attract the students' imagination and develop their idea into good structure to write descriptive text. The researcher used visual media because visual media is the appropriate media that can be applied in the class.

Based on some experts theory about the effectiveness of using media in teaching learning process (previous chapter), in general, the students will be more active in learning process if there is an interesting media that teacher apply in transferring material in the classroom. So, in this research the creative media helped the students to understand the topic. Then, the researcher expects that the media will be used by the teacher in teaching writing descriptive text.

## **B. Suggestion**

By considering the conclusion mentioned above, the writer suggests that picture series is used in teaching writing descriptive text especially in the class which can not apply modern media. The writer mentions some suggestions as follows:

### 1. Suggestions to other researchers

The researcher suggest to other researcher to develop picture in teaching writing descriptive text because the research proved that picture could stimulate the students to enrich their idea.

### 2. Suggestions to other teachers

The researcher suggest to English teacher to apply picture series as one of the alternative ways to improve students' ability in writing descriptive text.
