

## CHAPTER V

### CONCLUSION AND SUGGESTION

This chapter discusses about conclusion and suggestion on the basic of the result of research and discussion presented in the previous chapter.

#### A. Conclusion

Based on the research result, it be concluded that:

Developing *Kamishibai* media for writing narrative text at Junior High School followed Research and Development (R & D) model by Gall, Borg and Gall's (2003) which consist of a set of step to develop new educational product. Then, the step of *Kamishibai* media were modified into four steps, they are: 1) evaluation and analysis 2) media design 3) validation and revision 4) final production. And the product of developing *Kamishibai* media for teaching writing for eight-grade students of Mts. Mu'allimin Univa Medan had validated by expert validation (material and media). For the total assessments from material expert is 81 (Good) and the total assessments from the media expert is 84 (Good). With the result that kamishibai media is good and eligible to use for teaching writing for eight-grade students of Mts. Mu'allimin Univa Medan.

## B. Suggestion

From the conclusion above, there were some suggestions that were proposed that probably could help for English teacher and further researcher:

The use of *Kamishibai* media would be more effective if teachers are using this media bring the story narrative with more creative and communicative as the essence of *kamishibai* media utilization was an intermediary of communication between the storyteller and the listener. With higher creativity and more intense communication, the media not only serves to narrative story to students, but also to motivate and provide higher confidence of the students to use English more frequently in daily conversation. And for other researcher, This media consist of one story as the material; the story from Al-Quran is the story of Solomon's Messenger Bird. For other research can be adding another story as the material for *Kamishibai* media.
