The learning process can be successful if the teacher mastered in explaining the narrative text as well as using a learning media that can support them. Then, the teacher also should pay attention to kind of text that will be given to the students. For this reason, a narrative text

about fable is really suitable for the teacher to be used in the class, because it's easy to understand than others text given and entertain the grade eight of junior high school students it also fit to Syllabus of Curriculum 2013.

2. For the school, should do the need analysis regularly to find the most appropriate and interesting media for the students which could help the students to improve their ability in writing and their interest.
3. For the other researchers, in developing the media make sure that the media is related to the study.
