High appreciation will give to the headmaster of SMA Negeri 2 Balige, Aldon Samosir, S.Pd, because of his kindness to let the author conduct the research in that school. The teacher of XI grade, Paber Panjaitan, S.Pd, who let me replace him for 4 weeks to teach the students. The author will not forget to say thank you to all staffs in SMA Negeri 2 Balige who have welcomed me warmly.

The biggest role played by them, who always support me in every situation. They are: my mother, Pridawati Siringo-Ringo, who never be tired to say "finish you thesis"; my father Resman Simbolon, who always be patient and keep working hard in order to provide what I need; my sisters and my brother who does nothing but bothering me. And don't forget to Mam Nora, who always supports me in my thesis.

I am also thanks for Bilingual Mathematics Education 2014 members, thank you for support and togetherness for the past 4 years, it turns out that it is not easy to be a math student, thankfully we can share about our lesson so far. Also thanks to PPLT SMA Negeri 2 Balige for our three month togetherness our experience our real teacher in good or bad condition.

Thanks to my best friend during my college in UNIMED are Thomson Sidauruk, Ruth Sibarani, Gayatri Sianturi, Chrystin Siahaan, Elisa Nainggolan, and specially thanks to my *bestie iban* Nova Rista Situmorang, and *bestie turang* Ate Malem Sari Ginting who always supported me especially in the assignment and not forget to announce me about my thesis. I am also thanks for my best friend in LasVegas.FC and my uda and inanguda warmob(*Warung Mobil*) the front of Mipa gate.

The author knows this thesis is far from perfect, so for the reader who have any suggestion or criticisms for this thesis, be author welcomes it. The author hopes that the content of this thesis can help many parties in order to make the educational system in Indonesia better than before. Thanks.
