

ABSTRACT

Napitupulu Sependi, 055010191. Code mixing and code switching used by the Presenters on RRI Station Medan. A thesis : English Applied Linguistics Postgraduate School, State University of Medan. 2010.

This research deals with code mixing and code switching performed by the Presenters RRI Station Medan. It investigates the types of code mixing and code switching and the dominant types of them performed by the Presenters RRI Station Medan. It also intends to discover dominantly performing code mixing and code switching. The data were collected from seven days of recording on program at RRI Station Medan. The transcription was coded to identify the types of code mixing and code switching performed and the percentage formula was used to find out the dominant types of code mixing and code switching and presenters who performed it. The findings indicate that the presenters perform two types of code mixing and code switching, i.e: metaphorical and comersational code mixing and code switching. The dominant type of code mixing and code switching performed is conversational code mixing and code switching (82.87%). The dommant presenter who/performs code mixing and code switching a presenter with the initial S.
