

ABSTRAK

Olga Lydiawaty Sihombing, NIM : 7143341057, Analisis Kematangan Karir dan Pusat Kendali Internal terhadap Intensi Berwirausaha Mahasiswa Program Studi Pendidikan Bisnis Universitas Negeri Medan Stambuk 2014, Skripsi, Jurusan Ekonomi, Program Studi Pendidikan Bisnis, Fakultas Ekonomi, Universitas Negeri Medan Tahun 2018.

Masih banyak pengangguran di Indonesia yang dikarenakan dunia kerja tidak mampu menampung seluruh calon tenaga kerja yang ada. Penelitian ini bertujuan untuk mengetahui seberapa besar pengaruh Kematangan Karir dan Pusat Kendali Internal terhadap Intensi Berwirausaha Mahasiswa Program Studi Pendidikan Bisnis Universitas Negeri Medan Stambuk 2014. Teknik pengumpulan data yang dilakukan dengan cara observasi dan angket. Dengan teknik analisis data regresi linear berganda untuk menguji hipotesis penelitian dengan menggunakan uji t dan uji F.

Hasil analisis regresi berganda diperoleh persamaan $Y = 33,711 + 0,293 X_1 + 0,241 X_2$. Koefisien determinasi diperoleh R Square sebesar 0,260 yang berarti sebesar 26% variabel X_1 dan X_2 memberikan sumbangan pengaruh terhadap intensi berwirausaha mahasiswa. Berdasarkan uji t diperoleh masing-masing variabel X_1 dan X_2 berpengaruh positif dan signifikan terhadap intensi berwirausaha mahasiswa. Variabel X_1 dengan perhitungan data diperoleh $t_{hitung} > t_{tabel}$ ($3,380 > 1,666$) dan variabel X_2 diperoleh $t_{hitung} > t_{tabel}$ ($2,347 > 1,666$). Sedangkan untuk uji F diperoleh hasil bahwa secara simultan variabel X_1 dan X_2 berpengaruh positif dan signifikan terhadap intensi berwirausaha mahasiswa dengan nilai $F_{hitung} > F_{tabel}$ ($12,843 > 3,12$).

Kata kunci : Kematangan Karir, Pusat Kendali Internal, Intensi Berwirausaha

ABSTRACT

Olga Lydiawaty Sihombing, NIM: 7143341057, Career Maturity Analysis and Locus of Control Internal for Entrepreneurial Intention 2014 Business Education Students of the State University of Medan 2014, Thesis, Department of Economics, Business Education Study Program, Faculty of Economics, Medan State University 2018.

There is still a lot of unemployment in Indonesia because the world of work is not able to accommodate all existing labor candidates. This study aims to find out how much influence the Career Maturity and Locus of Control Internal on Entrepreneurial Intention of Students of Business Education Study Program at Medan State University 2014. Data collection techniques are carried out by means of observations and questionnaires. The research data analysis technique is multiple linear regression to test the research hypothesis using t test and F test.

The result of multiple regression analysis is obtained by the equation $Y = 33,711 + 0,293 X_1 + 0,241 X_2$. Furthermore, the determination of the efficiency obtained by R Square is 0.260, which means that 26% of the variables X_1 and X_2 contribute to student achievement. Based on the t test, it is found that each variable X_1 and X_2 has a positive and significant effect on behavior in managing student finances. The variable X_1 with the calculation of the data is obtained $t_{count} > t_{table}$ ($3,380 > 1,666$) and the variable X_2 is obtained $t_{count} > t_{table}$ ($2,347 > 1,666$). Where as for the F test results obtained that simultaneously variables X_1 and X_2 have a positive and significant effect on Entrepreneurial Intention Students with a value of $F_{count} > F_{table}$ ($12.843 > 3.12$).

Keywords: Career Maturity, Locus of Control Internal, Entrepreneurial Intention
