

PREFACE

Give thank's to Allah Subhanallahu Wata'ala give me more spirit to finish my thesis. The title is The implementation of Problem Based Learning to Improve Mathematical Communication Ability on Program Linear Topic at Grade XI IPA SMA Negeri 1 Perbaungan. This thesis was arranged to satisfy the law to get the Sarjana Pendidikan of Mathematics and Science Faculty in State University of Medan.

There are many people involved on this research. They also support the author to finish this thesis. Special thanks to Dr. Izwita Dewi, M.Pd, who has given his knowledge, guidance, and advice from this first page of this thesis until it has finished. Special thanks is also expressed by the author to the thesis examiner Budi Halomoan Siregar, S.Pd., M.Sc., Mangaratua Simanjorang, M.Pd., Ph.D., Pardomuan NJM Sinambela, S.Pd, M.Pd.

The author also expressed much thanks to Prof. Dr. Syawal Gultom, M.Pd as the rector of Medan State University, Dr. Martina Restuati, M.Si as the dean of Mathematics and Natural Science Faculty, Dr. Iis Siti Jahro, M.Si as the coordinator of Bilingual Program, Dr. Pardomuan Sitompul, M.Si as the head of Mathematics Department, Lasker P. Sinaga, S.Si, M.Si as the secretary of Mathematics Education Department, and all employees who supported in completing this thesis.

High appreciation will give to the headmaster of SMA Negeri 1 Perbaungan, Riadi, S.Pd, M.AP because of his kindness to let the author conduct the research in that school. The teacher of XI grade, Syahlan Hasibuan, S.Pd, who let me replace him for 4 weeks to teach the students. The author will not forget to say thank you to all staffs in SMA Negeri 1 Perbaungan who have welcomed me warmly.

The biggest role played by them, who always support me in every situation. They are: my mother, Nurhayati, who never be tired to say "finish you thesis"; my father Rivai Ginting, who always be patient and keep working hard in order to provide what I need; my sisters Siti yulia, Santa Savhira and my brother Gunawan who does nothing but bothering me. And don't forget to Mam Nora, who always supports me in my thesis.

I am also thanks for Bilingual Mathematics Education 2014 members, thank you for support and togetherness for the past 4 years, it turns out that it is not easy to be a math student, thankfully we can share about our lesson so far. Also thanks to PPLT SMA Negeri 1 Perbaungan for our three month togetherness our experience our real teacher in good or bad condition. Mia Amelia, comrade arms in 9th semester, big thanks sis.

Thanks to my best friend during my college in UNIMED are Lenny Azhar, Ruth Cristin Lilyani Sibarani, Lasma Ronauli Pasaribu, Christin Yessica Siahaan and specially thanks to my *bestie* Nova Rista Situmorang, who always supported me especially in the assignment and not forget invited to hangout. I am also thanks for my sisters, *kak* Marta and *kak* Momo who want to hear me about difficulty this and that. And thanks for my *Appara* Jupiter, Thomson, Eko Prabowo and Marthogi. Thanks also for my *Bebe* who always provide support, enthusiasm and motivation for the author

The author knows this thesis is far from perfect, so for the reader who have any suggestion or criticisms for this thesis, be author welcomes it. The author hopes that the content of this thesis can help many parties in order to make the educational system in Indonesia better than before. Thanks.
