

ABSTRAK

Erwin Syahputra Sianipar, NIM 7133341039, Pengaruh Motivasi Belajar dan Kreativitas Siswa Terhadap Hasil Belajar Pada Mata Pelajaran Stenografi Indonesia Kelas X AP SMK Swasta Budi Satrya, Medan T.P 2017/2018. Skripsi, Jurusan Pendidikan Ekonomi, Program Studi Pendidikan Administrasi Perkantoraan, Fakultas Ekonomi, Universitas Negeri Medan 2018.

Masalah dalam penelitian ini adalah motivasi belajar dan kreativitas yang sangat rendah dapat berpengaruh terhadap hasil belajar siswa. Penelitian ini dilaksanakan di SMK Swasta Budi Satrya Medan Tahun Pelajaran 2017/2018. Populasi dalam penelitian ini adalah seluruh siswa kelas X Program Keahlian Administrasi Perkantoran SMK Swasta Budi Satrya Medan yang berjumlah 83 orang. Teknik pengumpulan data menggunakan observasi, wawancara, angket, dan dokumentasi. Tujuan dalam penelitian ini adalah untuk memberikan gambaran sejauh mana motivasi belajar dan kreativitas siswa mampu memberi pengaruh terhadap hasil belajar siswa.

Hasil analisis yang diperoleh secara parsial, motivasi belajar (X1) memiliki pengaruh yang positif dan signifikan terhadap hasil belajar siswa yaitu $6.563 > 1,990$ (thitung>ttabel). Kreativitas siswa (X2) memiliki pengaruh positif dan signifikan terhadap hasil belajar siswa yaitu $5.468 > 1,990$ (thitung>ttabel). Nilai Fhitung = 57.393 yang selanjutnya dibandingkan dengan Ftabel pada taraf signifikan 95% ($\alpha=0,05$) dan dk = 83 – 3 yaitu 3.11. Nilai Fhitung>Ftabel ($57.393 > 3.11$) dan nilai Sig $\alpha=0,05$. Hal ini berarti bahwa hipotesis ke tiga di terima, yaitu “Terdapat pengaruh positif dan signifikan antara motivasi belajar dan kreativitas siswa terhadap hasil belajar siswa, Perhitungan determinasi juga di peroleh nilai R Square sebesar 0.589 yang berarti 58.9% hasil belajar pada siswa kelas X AP SMK Swasta Budi Satrya Medan Tahun akademik 2017/ 2018 secara bersama-sama dipengaruhi motivasi belajar dan kreativitas siswa, sedangkan 41.1% dipengaruhi variabel lain yang tidak di teliti dalam penelitian ini.

Dengan demikian dapat disimpulkan bahwa ada pengaruh positif dan signifikan secara simultan antara motivasi belajar dan kreativitas siswa terhadap hasil belajar siswa kelas X AP SMK Swasta Budi Satrya Medan T.P 2017/2018.

Kata Kunci : Motivasi Belajar, Kreativitas Siswa, dan Hasil Belajar

ABSTRACT

Erwin Syahputra Sianipar, Reg. Number 7133341039, Effect of Motivation Learning and Creativity of Students on Study Result in Stenographic of Indonesia Subjects in Grade 10th of Administration Office in SMK Swasta Budi Satria Medan at Academic Year 2017/2018. Thesis, Department of Economic Education, Program of Administration Office, Faculty of Economics, State University of Medan 2018.

The problem in this research contents is the motivation of learning and creativity very low can affect study result of student. This research was conducted in SMK Swasta Budi Satria Medan at Academic Year 2017/2018. Population in this research is all student in Grade 10th of Administration Office in SMK Swasta Budi Satria Medan which amounted to 83 people. Data collection techniques used observation, interviews, questionnaires, and documentation. The purpose of this study is to provide an overview of the extent to which the motivation of learning and creativity of students are able to give effect to study result of student.

The result of partially obtained analysis, motivation of learning (X1) has a positive and significant effect on study result of student that is $6,563 > 1,990$ ($t_{count} > t_{table}$). Creativity of students (X2) has a positive and significant influence on study result of student that is $5.468 > 1.990$ ($t_{count} > t_{table}$). The value of $F_{count} = 57.393$ is then compared with F_{table} at 95% significant level ($\alpha = 0,05$) and $dk = 83-3$ is 3.11. The value of $F_{count} > F_{table}$ ($57.393 > 3.11$) and the Sig value $\alpha = 0.05$. This means that the third hypothesis received, namely "There is a positive and significant influence between the motivation of learning and creativity of students to study result of student, the calculation of determination also obtained the value of R Square of 0.589 which means 58.9% study result of student in Grade 10th Administration Office in SMK Swasta Budi Satria Medan at Academic year 2017/2018 together influenced the motivation of learning and creativity of students, while 41.1% affected by other variables not studied in this research.

Thus it can be concluded that there is a positive and significant influence simultaneously between the motivation of learning and creativity of students on study result of student in Grade 10th of Administration Office in SMK Swasta Budi Satria Medan at Academic year 2017/2018.

Keywords: Motivation of learning, Creativity of students, and Study result
