

## CHAPTER V

### CONCLUSIONS AND SUGGESTIONS

#### A. Conclusions

Based on the findings and discussions in Chapter IV, some conclusions can be formulated as follows.

1. There are nine out of ten types of taboo words that consist of Cursing, Profanity, Taboo, Obscenity, Vulgarity, Slang, Epithets, Insult and Slurs and Scatology which appear in *Logan 2017* Movie . The highest frequency of the types of taboo words is obscenity. Obscenity appears 48 times out of 136 total data. The lowest frequency is cursing which appears only 2 times out of 136 total data. The reason why obscenity always appear in the conversation because it is considered as the most effective way to express feelings, to insult someone, to make someone understand what an individual want. Moreover, it is used to show disrespect towards someone or it can easily debase other people's pride and to hurt someone's feeling.

The least frequently used taboo word is cursing. Therefore it is not the effective way to express feelings or to show disrespect towards people because it is not a strong word that could impact people's pride or feeling.

2. There are three functions from four functions that found in *Logan 2017* Movie , they are to draw attention to oneself, to show contempt and to be provocative. To draw attention is the highest frequency among others which appears 22 times. The lowest function is to be

provocative which appear only 6 times. To show attention to oneself function appears mostly in this movie is because it can represent the speaker's intention to gain the attention from the listeners. Moreover, it can be the most effective function to make other people pay attention and understand and even obey the speaker.

## **B. Suggestion**

Based on the conclusions above, some suggestions can be stated as follows.

1. For English Department Student, in order to understand the types and functions of taboo words, the first thing is to pay a better attention in categorizing the types and functions of taboo words because not all taboo words can be only categorized as one of each types. They could be cross-categorized depend on the context of the sentences.
2. To the next linguistics researchers who have the same topic, this research is focusing on identifying the types of taboo words and describing the functions of taboo words. There are some problems that need to analyze such as the motives of the taboo words and gender issues. For the similar researchers, it could give a better understanding and additional information of the same topic.
3. To the society, this research is provided the knowledge in understanding the use of taboo words especially in the types and functions of taboo words. Taboo words are categorized as bad language and it will impact the listeners in certain way, but not all

taboo words have the same meaning, it have to be analyze base on the context of the sentence in order to understand the exact meaning.
