

CHAPTER V

CONCLUSION AND SUGGESTIONS

A. Conclusion

Based on the previous data analysis, the conclusion of this research were:

1. All types of sign classification: icon, index and symbol were found in *Ndungndungen Nasehat* dan *Ndungndungen Adat*. The total numbers of sign classification were 50. There were 22 (44%) Icon, 17 (34%) and 11 (22%) symbol. The use of icon became the most dominant types of sign classification found in *Ndungndungen Nasehat* dan *Ndungndungen Adat* after the use of symbol and index.
2. The finding shows that the use of icon became the most dominant sign types in *Ndungndungen Nasehat* but, in *Ndungndungen Adat*, the most dominant types is Index. All types of sign classification found in *Ndungndungen Nasehat* and *Ndungndungen Adat* have its own meaning refers to the use of sign itself. All signs found in *Ndungndungen* used to show their politeness in talk and as language varieties, and as their characteristic which has meaning messages, advices, or as a guidance to their life.

B. Suggestion

There were several suggestions that the researcher could offer to readers in conducting the related research. The suggestions are as follows:

1. Through the findings of the research, the students of English and Literature Department were suggested to learn more about semiotic especially classification : Icon, Index and symbol related to other culture in order to enhance their knowledge.

2. For other researchers, it will be usefull as guidance or reference for the further research about another oral tradition. The findings also could be used as comparison to the other researches.
