

CHAPTER V

CONCLUSION AND SUGGESTION

5.1 Conclusion

Based on the research, it can be concluded that:

1. The value of the higher order thinking achievement of students in in grade XI Science SMAN 2 Kisaran is 70.73% in range 70-79% which indicates that the students critical thinking skills is in "enough category".
2. The value of the critical thinking achievement of students in in grade XI Science SMAN 2 Kisaran is 55.73% in range <50-69% which indicates that the students critical thinking skills is in "less category".

5.2 Suggestion

Based on the result and conclusion of this research, researcher has some suggestions as follows:

1. For further research, it is expected to use time more effectively and efficiently in order to increase concentration in teaching and learning.
2. For further research, need to consider where the learning process should be done.
3. It is expected that the teaching and learning process will be carried out in a smaller scope.
