

CHAPTER V

CONCLUSION AND SUGGESTION

A. CONCLUSION

After analyzing the novel, the writer went to the conclusions as follows :

1. Racial Discrimination were occurred many situations in Northup's life as described in *12 Years A Slave* novel from the way they treated the black people as if they were not human that have the same right.
2. The slaves also fight for their right by doing resistances. As resistance was done to get a better life, in the end Northup finally became a free man and he can gather with his family. Resistances were done by the slaves in many some ways such as actions and also statements.
3. Racial Discrimination leads to human destruction, one of them is slavery as described in *12 Years A Slave*. Slavery has brought the dark shroud of humanity as been described in *12 Years A Slave* novel. It is forbidden for the slaves to communicate while working. The only one thing is permitted to do, is working.

B. SUGGESTION

There are several suggestions that the writer could give to the readers related to racial discrimination issues, they are :

1. Racial discrimination is not a simple thing. It causes human destruction. It doesn't appreciate human as God's creature that has the right to live safely. So, we must prevent any kind of racial discrimination. Whether it happens individually or in a group.
2. For those who have been victims or experienced racial discrimination, you should not give up easily and never keep the past to do any revenge. Never let racial discrimination ruin your mind, confidence, personality, and who you really are as human beings..
3. Racial discrimination is a very important issue that needs to be taken seriously and also as a reminder to people all over the world; the importance to educate children in their early age so that they don't see or appreciate someone just because of their physical appearance. That the difference among them is not a reason to be separated but to be united instead.
4. Indonesia, as a multi-cultural country, where we come from different religions and also tribes, and promote tolerance so that we can help avoid and terminate the destructive effects of racial discrimination.
