CHAPTER V

CONCLUSIONS AND SUGGESTIONS

This chapter consists of three sections. The first section is conclusion. Second is suggestion.

A. Conclusion

The conclusion of the women's language features used by women sellers in Medan traditional market are there were nine types of women's language features. They are lexical hedges or fillers, tag questions, rising intonation on declaratives, empty adjectives, precise color terms, intensifiers, superpolite forms, avoidance of strong swear words, and emphatic stress. Hyper-correct grammar did not occur in this research. Hyper-correct grammar was not found because generally, consumer and seller in were informal speech situation .

Lexical hedges or filler 14 times, tag question 11 times, rising intonation on declaratives 8 times, empty adjective 11 times, precise color terms 11 times, intensifier 15 times, superpolite form 6 times, avoiding strong swear word 1 time, and Emphatic stress occur 28 times

The sellers used lexical hedges or filler to give they time to think what should they say next. Tag question in sellers' utterance to emphasize or make the consumer more believe what seller said. Rising intonation on declaratives in sellers' utterance to get response of the addressee or consumer. Empty adjective in sellers' utterance to give more emphasis what sellers said . Precise color terms purpose to simplify the conversation between seller and consumer. Intensifier purpose to strengthen, emphasize, hyperbole the words that have different things. Super-polite forms in the utterance purpose to soften the utterance. Avoiding

strong swear word to strengthen the expression of the speaker. Emphatic stress purpose to strengthen the statement or utterance of the seller.

Suggestion

1. The first for the English students. This research is beneficial to be used in Sociolinguistics class as their references. It can enrich their knowledge in learning women's language features from many sources like movie, daily interaction .

2. Second ,the benefits for future researchers that this research will be provided more information about the women language features. This reseach provide the information for futher research about women's language in society.
