

CHAPTER V

CONCLUSION AND SUGGESTIONS

A. Conclusion

Since English language is one of the important subjects in Indonesian curriculum, teacher should be more creative to make English class teaching and learning process goes well. Teacher can improve the quality of teaching and learning process by using various innovative media which can involved to the material in the textbook and syllabus.

1. After analyzing the data, an audio-visual media by using *Animaker* were developed based R&D research development. The final product was a set of teaching document; there were a description video with the title, “Smart Health Clinic”, a manual, a lesson plan, exercises assessment which is packaged into a compact disk (CD).
2. By using the *Animaker* , the improvement of the students writing skill also improved. The students are able to learn the topic by watching the video. The audio-visual media was developed to be attractive and interesting to attract the students’ enthusiasm in learning descriptive text in English.

B. Suggestions

Based on the study of Developing *Animaker* as Teaching Media in Writing Descriptive Text for The Tenth Grade Students of Vocational High School of Pharmaca Medan, the writer would like to give several suggestions to help improving the quality of teaching and learning process. The suggestions are elaborated as follows:

1. For Teachers

It can be used as a teaching and learning media if the teacher can organize it according to the students' need.

2. For the Students

By using innovative media in English class, it perhaps students will be more interested and enthusiast to learn English, especially writing descriptive paragraph text.

3. For other Researchers

It is hoped that this research could inspire and may help other researchers to conduct research related to writing descriptive paragraph text.
