

CHAPTER V

CONCLUSION AND SUGGESTION

5.1 Conclusion

Based on the findings, the conclusion are described after analyzing the data as follows :

1. In this research the researcher found ten types of euphemism in Republika online mass media. Eight types from Allan's theory (2012) and two more types are found by the researcher based on data obtained and based on the situation that depicted in the context. So, totally types are ten. Ten types of euphemism found in political news in Republika online mass media by the researcher namely indirection, abstraction, agreement, remodeling, semantic shift, emotive understatement, widening, borrowing, and circumlocution. The most dominant and also the highest types use by the politician is Indirection (31.4%).

2. In realizing the use of euphemism in political news in Republika online mass media conveyed four realization namely implicit, explicit, direct and indirectly. The most way which found in news of politic was indirect (29.6%). It means that the most euphemism which found there was all the issues, it was true or not, the thing are discussed indirectly by using other word or the appropriate word to describe the situation happened. By using an indirect way can prevent the speaker from violating both law violations and other violations.

3. The reason of using euphemism in this research use theory of Kate Burridge (2012), the first politician uses euphemism to protect himself from violations if he

reveals the truth. The second politician uses euphemism to obscure meaning. The third euphemism is used to hide the real meaning. The fourth, euphemism is used to tell the truth but in a convoluted way. And the last, politicians use euphemism to define the state of an organization in various ways.

5.2 Suggestion

In relation to the conclusion above, the suggestions are stated as the following:

1. It is suggested that further studies should be conducted to find out more types of euphemism in other context.
2. It is a suggestion that further studies should be conducted a study to find out more ways of euphemism realized in same context by providing more data to enrich the analysis of euphemism in political news.
3. It is advisable for the readers to understand the situation of political news by seeing the meaning not only the explicit but seeing from the implicit one. Because in politic, the politician not state their word by using explicit or direct ways but they more use implicit and indirection ways.
