

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

A. THE CONCLUSION

Based on the development result of the research in the fourth chapter, the researcher could conclude that there were some steps to develop to Pictures Series, (1) Observed, (2) Evaluated need analysis, (3) Develop/ designed the first product, (4) Validated in to the experts, (5) Revised it, (6) Tested it to large group, (7) Revised it again, (8) Got the final product. The quality of the developed Picture Series or the product was in good quality by having the score very good. The score came from the evaluation of IX-6 class (28 students) – class from students of SMP Brigjend Katamso Medan. They scored the product, 46,9% students gave very good quality of the media, 50,6 students gave good to the quality of media and the rest of the students 0,4 % gave not really good quality of the media. It made the media was in good quality.

B. THE SUGGESTIONS

There were two suggestions that the researcher could give, they were:

1. For teachers, the use of teaching media should be more emphasis on the visual aspects such as the use of picture series, so as to improve students' writing ability and interest.

2. For the school, SMP BRIGJEND KATAMSO MEDAN is expected to provide infrastructure and equipment especially visual media learning, such as picture series.
3. For other researcher, in developing the research further they need to improve students writing ability with picture series.
