CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

It can be concluded that developing of the appropriate descriptive text is needed for X grade of Computer Network Engineering students at SMK N 1 Percut Sei Tuan. The descriptive texts are developed based on scientific approach. The developed writing materials are proved by the validation of two experts. The average scores are 4.1 from English lecturer and 4.2 from English teacher. It is categorized as "good" meaning that the developed writing materials are appropriate for the first grade students of Computer Network Engineering study program at SMK N 1 Percut Sei Tuan.

B. Suggestion

On the basis of the conclusion, some suggestions are proposed to the English teacher, institution, and other researcher.

First, the English teachers at SMK N 1 Percut Sei Tuan are suggested to use the developed writing materials. Then, they should consider the students' needs to choose the learning materials and developed the writings materials if they found the materials for the computer network engineering students' at SMK N 1 Percut Sei Tuan.

Next, the institution should supervise the teachers and ensure them that the writing materials supported the students' level and find which appropriate to the students' need.

Finally, to other researcher should find many references to support in developing writing materials, give the students' chance to deliver their wants in new writing materials and make English writing materials more easily for the computer network engineering students' at SMK N 1 Percut Sei Tuan.
