

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

After analyzing the data, the researcher draws the conclusion that the students' existing writing media are not interesting. They find it is difficult to write a descriptive text which eventually brings them to be passive learners. They want to have the interesting and attractive media which motivate them to learn, think and write the descriptive text. The resolution for them is developing the new interesting writing media. There new writing media are based on their needs and make them more interest in learning as well as case them to think and write a descriptive text through the Web Comic online.

B. Suggestion

Based on the conclusions above, the researcher suggests that teacher and the students should do the need analysis regularly to meet the most appropriate and interesting media for the students. The researcher was designed Web comic is one of the interesting media to teach writing descriptive text in the classroom. The media teaching was online (<https://app.wizer.me/editor/qAEn4LPjuM3F>). The media should be displayed in front of the class when the teacher teaches the students, but in the school the projector was limited. The students should be accessed the media online, but the school regulations weren't allow the students to carry a cellphone at the classroom. In order to, the researcher make an easy the students in teaching learning process. The researcher printed the web comics into the paper and shared

them to all students. The last, teachers should make the other interesting media as the students' need. In this way, the students can achieve their best achievement in writing descriptive text.
