

## ACKNOWLEDGEMENT

First of all, the researcher really gratitude to ALLAH SWT for the enlighten thought for me so she can finish it in time. Alhamdulillah.

This endeavor is dedicated to her loving parents, H. AKP. Supardi, S and Hj. Aida Suryana, S.Ag, A.Pd, who have become inspiration in her life; without them, researcher would never have accomplished this goal. Her parents have been a support and resource for her, and she loves them both very much.

Researcher also very thankful to her advisors committee: Prof. Dr. Lince Sihombing, M. Pd and Prof. D. P. Tampubolon, Ph. D; for their time, efforts, advice and feedback are meant a lot for her. Also a big thank to the reviewers; Prof. Amrin Saragih, M.A., Ph. D, Prof. Dr. Busmin Gurning, M. Pd, and Dr. Eddy Setia, M.Ed., TESP; for the suggestions and questions which are really helped to improve this thesis to be better.

Researcher would like to give a big appreciation for all of her colleagues, family, and friends. There are too many to mention! The times that have been dedicated to her education caused her to sacrifice precious opportunities with those she loves. Researcher missed many opportunities to hangout and spending time with her niece Alya and her nephew Abrar. Researcher also could not have done this without the support of her husband, Afwan Hadi Nst, S.S who celebrated each accomplishment with her along the way. Merci monsieur.

Finally, thank you to everyone for your understanding and support through this process. Many of you have listened when researcher needed to vent, and provided a shoulder when researcher needed to cry. Thank you.
