

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### A. Conclusion

Based on the findings and discussions in chapter IV, some conclusion can be formulated as follows :

1. There were 4 types of taboo words found in this research, they were Ephetets, Profanity, Vulgarity, Obscenity. The highest percentage of the types of taboo words was Ephetets which appeared 59,10 %. The lowest percentage were vulgarity and profanity which were only 9.10 %. The reason why ephetets always appeared in the conversation because it was considered as the most effective and easy way to express feelings, to insult someone, to make someone understand what an individual wanted. Moreover, it was used to show disrespect towards someone or it could easily debase other people's pride and to hurt someone's feeling.

The least percentage were vulgarity and profanity because actually vulgarity often used by people under-educated and also the characters of the videos rare to use profanity because the videos did not tell a story about something related to the religious story, so, that was the reason why profanity only appears 2 times.

2. The use of taboo word on *Tiur Anak Medan*'s Instagram videos had the impact for the viewer. From the 5 participants, 4 of them apparently agreed with the use taboo words in video contents on social media. It was

considered because the use of the word will make the conversation more natural and funny. The use of taboo word on social media made the viewer was used to hearing and pronouncing the word in their daily life. So that, they more often uttered the words when they were with their peers in informal situation. Besides that, taboo words now are getting familiar for people to hear and utter.

## **B. Suggestion**

Based on the conclusions above, some suggestions can be stated as follows

1. For English Department Student, in order to understand the types and effect of taboo words, the first thing is to pay a better attention to the effect of taboo words that the existence of taboo words is not considered a problem anymore to hear and say because the function of taboo words is changing as time goes by.
2. For the other researchers, this research focuses on identifying and describing the types of taboo words and also the effect of taboo words in Tiur Anak Medan's Instagram videos. There are other problems such as genre issue and motives of taboo words. For similar researchers, it could give a better understanding and additional information of the same topics.
3. To the society, this research provides the knowledge in understanding the use of taboo words especially in the types and effects of taboo words. Taboo words are categorized as bad language and it will impact the

listeners in certain way, but not all taboo words have the same meaning, it have to be analyzed based on the context of the sentence in order to understand the exact meaning.
