

ACKNOWLEDGEMENT

Praise and great gratitude submitted to Almighty God, who always gives His gracious mercy and tremendous blessing that has helped the writer finishing this thesis entitled with **“Effect Of Student’s Learning Style Toward Problem Solving Ability In Human Skeletal System Problem At Sman 1 Silaen Academic Year 2018/2019.”**

This thesis is arranged to fulfill one of the requirements in accomplishing the bachelor of Education Degree In Bilingual Biology Department, Faculty Of Mathematic And Natural Science, State University of Medan.

The author would like to express her sincerest gratitude to her research advisor Mr. Dr. Hasruddin, M.Pd as my thesis supervisor who has generously spent precious time in giving the guidance, encouragement, comments, suggestions, and support until this thesis comes true. The great appreciation is addressed to Sir Amrizal, S.Si., M.Pd. MamDra. Cicik Suryani, M.Si and MamDra. Marlinda Nilan Sari rangkuti, M.Si as the thesis examiners for their advices, criticisms, constructive comments, and valuable in completing this thesis and also thank you to Dr. Ashar Hasairin, M.Si as my Academic Supervisor that help me during study in UNIMED.

I would like to express my appreciation to the Dean Faculty of Mathematic and Natural Science, Mrs. Dr. Martina Restuati, M.Si, to Head of Biology Departement, Mr. Dr. Hasruddin, M.Pd, to Coordinator of Bilingual Program, Mrs. Dr. Iis Siti Jahro, M.Si for their support and help towards my undergraduate affairs.

I also thank the headmaster of SMAN 1 Silaen Sir Drs. Hasonangan, MM and the biology teacher as guide during research, Mam Lastri Pardede and office staffs and especially the students in grade XI Science SMA Silaen who participated in filling out the questionnaire and test instruments from my research.

My deepest gratitude and big appreciation to beloved parents Mesdun Situmorang and Rustani Sibuea, for the endless love, unflinching support, greatestprayer, encouragement throughout the entire life and also to my sisters

Imelda Situmorang and Lavenia , my brother Stinki that always give me guide to process of my data research until now.

Sincerely thanks to all my lovely friends Dwi Ayu Puspita, Ikhwani Lubis and Romian Lumbangaol, Henni, Lestri, Martha, Naomi, Novita, Anna Purba, Evi Siagian, Idamayanti Siagian and ITM gengs who always gives amazing spirit. For my classmate Bilingual Biology 2014 that give more information during my researcn and support for my thesis until now.

May God reward all those who have contributed in the completed of this thesis. Finally, I hoped this thesis would be beneficial to contributed ideas in education, be useful especially for students and teacher of SMAN 1 Silaen. Then, i realized that this thesis is still far from being perfect. Therefore, constructive comments and suggestion are needed for further improvement of this thesis.
