

ACKNOWLEDGEMENT

First of all, the writer will thank God for His love and mercy that enable her to finish the thesis on time. The title of this thesis is "The Comparison of Learning Outcomes and Retention Between Students Taught With Video And Visual Image Media in Tissue Culture in Grade XI IPA SMA Negeri 5 Medan Academic Year 2018/2019" to fulfill the requirement of the Sarjana Pendidikan degree at Biology department, faculty Mathematics and Natural Science, State University of Medan.

The writer would like to express appreciations to all people with whom she has been working with. First, she thanks Prof. Dr. Herbert Sipahutar, M.S., M.Sc for his assistance, guidance, and time to make this thesis possible to finish on time. The writer also recognized the valuable constructive critics and suggestions from all examiners (Dr. Ely Djulia, M.Pd., Dra. Martina Asiaty Napitupulu, M.Sc., Dr. Widya Arwita, S.Pd, M.Pd). The writer will not forget the contribution of Dr. Hasruddin, M.Pd as the head of Biologi department, Dr. Iis Siti Jahro, M.Si the coordinator of bilingual study program and Prof.Dr.rer.nat.Binari Manurung, M.Si as academic supervisor. Together, the contribution and help of the headmaster of SMA Negeri 5 Medan, Drs. Haris H. Simamora, M.Si who allowed the writer to conduct the research, and Mrs. Tiurmerida Saragih S.Pd, all the teachers and student especially XI IPA 2 and XI IPA 3 in SMA Negeri 5 Medan are highly appreciated.

At last, the writer must be thankful to her beloved parents Tumbur Silaban and Masliani br. Manihuruk for their endless support, love and prayer during her study until now. The writer has put all efforts and time to finish this thesis. She is very aware about all things that are not acceptable for the readers. She welcomes all suggestion and advices to improve the quality of this thesis.
