Comments (in English, please use separate sheet if necessary)

1. Check the template again and adjust it to your script
2. Additional research objectives and research benefits at the end of the introductory paragraph
3. Some font sizes don't match the template
4. Some citations do not match the template
5. There is data that does not match the results
6. ELISA data and statistical analysis results need to be presented
7. Some font sizes and types are not correct
8. Check your bibliography again. Due to an error in the introduction, the order of use of the bibliography must have changed
